The risk factors are classified as under for the sake of better clarity and increased understanding:

A. INTERNAL RISK FACTORS

I. Business Risks/ Company specific Risk

- 1. Fluctuation in revenues due to overall sluggish conditions of economy may have impact on our revenues and profitability.**

Our Revenues from operations have been fluctuative over the years, which is evident from the table below:
(Rs. in Lakhs)

Year	2016-17	2015-16	2014-15	2013-14	2012-13
Total Revenue	2723.44	4314.52	3832.39	1955.09	2233.34

Our revenues are largely dependent upon vibrant economic activities. However for the past 2-3 years, the economy has been sluggish, especially Real Estate and IT industry, who have been our major consumers. If the trend continues, we may not be able to achieve our growth strategy and may have impact on our profitability.

- 2. Any change in the technology may render our current technologies obsolete or require us to make substantial capital investment to cope with the market.**

Technology upgradation is a regular process and it is also essential for providing the desired quality to the customers. We are taking all the possible steps to keep our manufacturing facilities in line with the latest technology. However, any further upgradation in the technology may render our current technology obsolete and require us to upgrade the existing technology or implement new technology. Further implementing new technology may require us to incur huge capital expenditure which could affect our cash flows and result of operations.

- 3. Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.**

The demand for our products depends on quality that we manufacture and market. Any failure of ours to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customer's quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products or any other unforeseen events could adversely affect our reputation, our operations and our results from operations.

- 4. Any delay or default in payment from our customers could result in the reduction of our profits and affect our cash flows.**

Our operations involve extending credit, ranging typically from 45 to 60 days, to our customers in respect of our products. Consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. Accordingly, we had and may continue to have high levels of outstanding receivables. For the Fiscal Years ended 2016-17, 2015-16 & 2014-15, our trade receivables were Rs. 957.41 Lakhs, Rs. 1,246.71 Lakhs and Rs. 875.23 Lakhs, respectively, which constituted 33.96%, 28.41% and 22.64 % respectively of our total revenues for the same periods respectively as per restated standalone financial statements. Debtors over six months have also increased substantially from Rs. 187.41 Lakhs in fiscal year 2015-16 to Rs. 618.51 Lakhs in fiscal year 2016-17.

The details of top 5 debtors as on March 31, 2017 are as under:

(Rs. in Lakhs)

Sr. No.	Name of Debtors	Amount as on March 31, 2017
1	Larsen & Toubro Ltd	336.69
2	R M Enterprises	227.70
3	L&T Technology Services Ltd	34.69
4	Omkar Realtors & Developers Pvt. Ltd.	27.75
5	Adani Estates Pvt. Ltd.	22.82

If our customers delay or default in making these payments, our profits margins and cash flows could be adversely affected.

5. *We may not be able to qualify for, compete and win orders, which could adversely affect our business and results of operations.*

We obtain certain orders through a competitive bidding process. In selecting suppliers, clients generally limit the tender to suppliers who have pre-qualifications based on several criteria including experience, technical capacity, previous performance, reputation for quality, the financial strength of the bidder as well as its ability to provide performance guarantees. However, price competitiveness of the bid is typically one of the most important selection criterion. If we are unable to pre-qualify for orders that we intend to bid on, or successfully compete for and win such orders, our business, results of operations and financial condition may be adversely affected.

6. *Our registered office and other premises from where we operate are not owned by us and are taken on lease.*

Following are the details of registered office and other premises taken on lease by us:

Address	Ownership	Period of Lease	Purpose
109, Gundecha Industrial Complex, Akurli Road, Kandivali (East), Mumbai- 400101.	Mrs. Manbhavati Rajendra Vishwakarma	April 1 st , 2016 to March 31, 2019	Registered Office
110, Gundecha Industrial Complex, Akurli Road, Kandivali (East), Mumbai- 400101	Mrs. Manbhavati Rajendra Vishwakarma	July 1st, 2017 to June 30th 2020	Office

106, Gundecha Industrial Complex, Akurli Road, Kandivali (East), Mumbai- 400101.	Mr. Rajendra Chitbahal Vishwakarma	April 1 st , 2016 to March 31 st 2019	Office

Our registered office and other premises have been taken on lease/rent. There are certain conditions in the Lease/Rent deeds of the property(s), any non-adherence to the said conditions could render the lessor of the property not to renew the lease deed. However since the premises are owned by promoters & the promoters group, we do not foresee any reason for non-renewal of lease.

For further details of the property refer chapter titled “Our Business” beginning on page 102 of this Prospectus.

7. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected*

Our lease agreement for registered office & other offices as mentioned above have not been stamped & registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

8. *Our business depends largely on availability of various materials and any shortage or interruption in the supply or decrease in quality could adversely affect our business or results of operations.*

The principal materials used in manufacture of modular furniture are wood, laminates, veneer, adhesives, and nuts & bolts. Our Company mainly purchases these materials from various suppliers for our manufacturing operations, where we do not have long term supply contract. We are therefore, entirely dependent on external suppliers for the various materials which constitutes a majority of the total cost of material consumed. The total material consumed constitutes 70.98%, 71.41% & 71.16% of total revenues for the FY 2016-17, 2015-16 & 2014-15 respectively. The price of these materials largely depends on the market conditions and overall demand of these. Generally, any increase in prices of these materials is passed on to our customers. However, any adverse fluctuations in the price which we may not be able to pass on to our customers could have a material adverse effect on our total cost of production. Further, any material shortage or interruption in the supply or decrease in quality of these materials could also adversely impact our business operations.

9. *Our top five customers contribute approximately 87.71% of our revenues during the financial year 2016-17. Any loss of business from one or more of them may adversely affect our revenues and profitability.*

Our top five customers contribute approximately 87.71% of our revenues during the financial year 2016-17 and this ratio was 89.29% & 86.20% for FY 2015-16 & FY 2014-15 respectively. Any decline in our quality standards, growing competition and any change in the demand for our products by these customers may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability. However, the composition and revenue generated from these clients might change as we continue to add new clients in normal course of business. We intend to retain our customers by offering solutions to address specific needs in a proactive, cost effective and time efficient manner. This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth.

10. *We face competition in our business from domestic competitors. Such competition would have an adverse impact on our business and financial performance.*

The industry, in which we are operating, is highly and increasingly competitive due to presence of many small time players in unorganized sector. Our results of operations and financial condition are sensitive to, and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations.

11. Our Company has contingent liabilities which if materialises may adversely affect the financial position of the Company.

As on March 31, 2017, our Company has contingent liabilities of Rs. 403.63 Lakhs towards bank guarantees issued and tax demands not provided for. The said contingent liabilities if materialises may adversely affect the financial position of our Company. The Bank guarantee is issued to customers against advance or as performance guarantee. These bank guarantees are released after a stipulated period of time even after supply completion. Though in past there has been no instance of our bank guarantees being encashed, we cannot assure you that this will not happen in future.

12. We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

We have in the course of our business entered into, and will continue to enter into, several transactions with our related parties. For details, please refer to the Statement of Related Party Transactions under chapter “Financial Statement” beginning on page 158 of this Prospectus. We cannot assure you that we will receive similar terms in our related party transactions in the future. We cannot assure you that we could not have achieved more favorable terms had such transactions been entered into with unrelated parties. The transactions we have entered into and any further transactions with our related parties have involved or could potentially involve conflicts of interest which may be detrimental to our Company. Though the Companies Act, 2013 has brought into effect significant changes to the Indian company law framework including specific compliance requirements such as obtaining prior approval from the audit committee, board of directors and shareholders for certain related party transactions, we cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on business and financial results, including because of potential conflicts of interest or otherwise.

13. We are subject to stringent labour laws or other industry standards and any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees could adversely affect our business, financial condition and results of operations.

Our manufacturing activities are labor-intensive. We are subject to a number of stringent labour laws that protect the interests of our workers, including legislation that stipulates rigorous procedures for dispute resolution and retrenchment of workers and imposes financial obligations on employers. While we have not experienced significant labour unrest in the past, strikes, lock-outs and other labour action, may have an adverse impact on our operations, and if not resolved in a timely manner, could lead to disruptions in our operations. We cannot guarantee that we will not experience any strike, work stoppage or other industrial action in the future and any such event could adversely affect our business, results of operation and financial condition.

14. Our business is subject to various operating risks at our project sites, the occurrence of which can affect our results of operations and consequently, financial condition of our Company.

Our business operations are subject to operating risks, such as breakdown or failure of equipments used at the client sites, shortage of materials, performance below expected levels of efficiency, labour disputes and accidents. The occurrence of these risks, if any, could affect our operating results, and we may have to lose customers which may affect our operating results.

15. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such

misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

16. We face foreign exchange risks, primarily in our import operations that could adversely affect our results of operations.

We import some of our materials from other countries that are generally priced in foreign currency. Accordingly any decline in the value of the Rupee against the foreign currency would increase the Rupee cost of such products. Although we closely follow our exposure to foreign currencies in an attempt to reduce the risks of currency fluctuations, potential losses if currencies fluctuate significantly is not ruled out. Any such losses on account of foreign exchange fluctuations may adversely affect our results of operations.

17. Our Company have availed certain unsecured loans that are recallable by the lenders at any time.

Our Company has availed certain unsecured loans of Rs. 160.51 Lakhs that are recallable on demand by the lenders. In such cases, the lender is empowered to require repayment of the facility at any point in time during the tenure. We may not be able to secure fresh funds or have internal accruals to repay those loans. As a result, our cash flow may be affected resulting in working capital constraints. However since the unsecured loans belong to promoters, we do not foresee any reason for recall on demand. For further details please refer “Financial Indebtedness” in the chapter “Financial Information” beginning on page 158 of this Prospectus.

18. Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in some of the previous year(s):

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

19. In case of our inability to obtain, renew or maintain the statutory and regulatory licenses, permits and approvals required to operate our business it may have a material adverse effect on our business.

We require certain statutory and regulatory permits, licenses and approvals to operate our business. We believe that we have obtained all the requisite permits and licenses which are adequate to run our

business. However, there is no assurance that there are no other statutory/regulatory requirements which we are required to comply with.

Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. Further, certain licenses and registrations obtained by our Company contain certain terms and conditions, which are required to be complied with by us. Any default by our Company in complying with the same, may result in inter alia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

We have regular system of checking for any regulatory license being expiring & to apply for renewal within stipulated time. For further details, please refer to section titled “Government and Other Statutory Approvals” beginning on page 203 of this Prospectus.

SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

OVERVIEW OF INDIAN ECONOMY

India's diverse economy encompasses traditional village farming, modern agriculture, handicrafts, a wide range of modern industries, and a multitude of services. Slightly less than half of the work force is in agriculture, but services are the major source of economic growth, accounting for nearly two-thirds of India's output but employing less than one-third of its labor force. India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers.

Thus, the country is attracting many global majors for strategic investments owing to the presence of vast range of industries, investment avenues and a supportive government. Huge population, mostly comprising the youth, is a strong driver for demand and an ample source of manpower.

With 1.33 billion people and the world's fourth-largest economy, India's recent growth and development has been one of the most significant achievements of our times. Over the six and half decades since independence, the country has brought about a landmark agricultural revolution that has transformed the nation from chronic dependence on grain imports into a global agricultural powerhouse that is now a net exporter of food. Life expectancy has more than doubled, literacy rates have quadrupled, health conditions have improved, and a sizeable middle class has emerged. India is now home to globally recognized companies in pharmaceuticals and steel and information and space technologies, and a growing voice on the international stage that is more in keeping with its enormous size and potential.

GDP AND OTHER INDICATORS

Demonetisation had negative impact on India's growth which slowed down to 7.1% in 2016-17, despite a very good showing by the agricultural sector. India also lost the tag of the fastest growing economy to China in the March quarter with a GDP growth of 6.1%. The GDP, as per the new series with base year of 2011-12, had expanded by 8% in 2015-16. It was 7.9% as based on the old series.

According to the data released by the Central Statistics Office (CSO), the Gross Value Added (GVA) slipped sharply to 6.6% in 2017 ended March 31, from 7.9% growth in 2015-16. The demonetisation seems to have impacted the GVA in the third as well as fourth quarter of 2016-17 which slipped to 6.7% and 5.6% respectively, from 7.3% and 8.7% in the same quarter of 2015-16.

Almost all sectors, with the exception of agriculture, showed deceleration in the aftermath of demonetisation. While the manufacturing sector output in the fourth quarter slowed to 5.3% versus 12.7% in the same period of last year, the construction sector slipped into the negative territory.

According to IMF World Economic Outlook Report released on July 23, 2017, Indian economy is expected to grow at to 6.4% during FY 2017-18.

The Q1 2017-18 GDP slowed down to 5.7% as compared to 7.9% on YoY basis and against 6.1% on QoQ basis, showed the data released by the Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation. The Q1 GDP has hit its 13-quarter low.

DETAILS OF UTILIZATION OF ISSUE PROCEEDS

EXPANSION PROJECT

Our Company is undertaking expansion of existing Plot No. 6 to 8, 52 Hecter, Expansion Area, New GIDC, Umbergaon-396171, District Valsad, Gujarat to manufacture of door frames and shutters predominantly for real estate sector.

Currently, our company is manufacturing modular furniture products. A few years back our company had introduced a new product line which broadly included different types of door frames and shutters. Over the few years this product line received a very good response from the real estate sector. However, the demand couldnot be matched with equal supply due to restricted production capacity.

Primarily due to this reason our company was of the view that a separate production facility catering only to this product line is the need of the hour. The proposed facility has the following main features:

- Better use of unutilized plot area without additional investment
- Reduction in energy consumption with the use of transparent insulated roof top
- Earmarked areas for sanding and polishing to avoid dust collection on finished product
- Wide gangways within the plant area to avoid material breakage
- Efficient material management and handling
- Maximum shop floor automation
- Increased production quality and efficiency with better production process design

The fund requirements for expansion project has been appraised by Union Bank of India and it has sanctioned a term loan of Rs. 625 Lakhs vide its approval letter dated June 16, 2017 as per details hereunder:

SECTION IV- ABOUT THE COMPANY

OUR INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and other industry sources. Neither we nor any other person connected with this Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly investment decisions should not be based on such information.

OVERVIEW OF INDIAN ECONOMY

India's diverse economy encompasses traditional village farming, modern agriculture, handicrafts, a wide range of modern industries, and a multitude of services. Slightly less than half of the work force is in agriculture, but services are the major source of economic growth, accounting for nearly two-thirds of India's output but employing less than one-third of its labor force. India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers.

Thus, the country is attracting many global majors for strategic investments owing to the presence of vast range of industries, investment avenues and a supportive government. Huge population, mostly comprising the youth, is a strong driver for demand and an ample source of manpower.

With 1.33 billion people and the world's fourth-largest economy, India's recent growth and development has been one of the most significant achievements of our times. Over the six and half decades since independence, the country has brought about a landmark agricultural revolution that has transformed the nation from chronic dependence on grain imports into a global agricultural powerhouse that is now a net exporter of food. Life expectancy has more than doubled, literacy rates have quadrupled, health conditions have improved, and a sizeable middle class has emerged. India is now home to globally recognized companies in pharmaceuticals and steel and information and space technologies, and a growing voice on the international stage that is more in keeping with its enormous size and potential.

GDP AND OTHER INDICATORS

Demonetisation had negative impact on India's growth which slowed down to 7.1% in 2016-17, despite a very good showing by the agricultural sector. India also lost the tag of the fastest growing economy to China in the March quarter with a GDP growth of 6.1%. The GDP, as per the new series with base year of 2011-12, had expanded by 8% in 2015-16. It was 7.9% as based on the old series.

According to the data released by the Central Statistics Office (CSO), the Gross Value Added (GVA) slipped sharply to 6.6% in 2017 ended March 31, from 7.9% growth in 2015-16. The demonetisation seems to have impacted the GVA in the third as well as fourth quarter of 2016-17 which slipped to 6.7% and 5.6% respectively, from 7.3% and 8.7% in the same quarter of 2015-16.

Almost all sectors, with the exception of agriculture, showed deceleration in the aftermath of demonetisation. While the manufacturing sector output in the fourth quarter slowed to 5.3% versus 12.7% in the same period of last year, the construction sector slipped into the negative territory.

According to IMF World Economic Outlook Report released on July 23, 2017, Indian economy is expected to grow at 6.4% during FY 2017-18.

The Q1 2017-18 GDP slowed down to 5.7% as compared to 7.9% on YoY basis and against 6.1% on QoQ basis, showed the data released by the Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation. The Q1 GDP has hit its 13-quarter low.

Q1 2017-18 GVA at basic price at constant (2011-2012) prices for Q1FY18 is estimated at Rs 29.04 lakh crore, as against Rs 27.51 lakh crore in Q1FY17, showing a growth rate of 5.6% over the corresponding quarter of previous year.

INDUSTRY COMPOSITION

As with the global market, home furniture is the largest segment in the Indian furniture market, accounting for about 65 per cent of furniture sales. This is followed by, the office furniture segment with a 20 per cent share and the contract segment, accounting for the remaining 15 per cent.

Home furniture

Home furniture in India is available in a wide range to cater to different customer needs. A typical middle class urban Indian home has five rooms (including kitchen and bathroom). About 25 per cent of the urban population live in homes with five rooms or more, while 45 per cent live in houses with three rooms or less. About 16 per cent is estimated to live in single-room homes. The type of furniture used depends on the customer's affluence and taste. Demand for furniture of international standards is limited to the larger cities.

Office Furniture

The office furniture segment caters to the commercial and office space. This segment has witnessed rapid growth in recent years, in line with the growth in the Indian economy and subsequent demand for office space. The thrust on real estate and office construction is expected to sustain in the near future, indicating continued growth for the furniture industry. High absorption levels and global investor interest will continue to bring life into India's office sector. In 2017, the office sector is likely to maintain its momentum with an anticipated absorption of 40 million sq. ft. - A strong trend of 'pre-commitment' in under constructed buildings IT/ ITES to continue to be the key demand driver for space across the country.

Contract segment

The contract segment caters primarily to hotels and its growth is consequently linked to growth in tourism and development of new hotels. There are around 1530 hotels in India in the organised sector. More than 10 per cent of these are in the 5-star and above categories.

Key Demand Drivers – Company Specific

Steady growth in the Indian economy and the consequent rise in living standards, have been key influencers on demand generation in the Indian furniture industry. The three key drivers that have had a significant impact on the sector are:

1. Changing consumer demographics
2. Real estate/housing boom
3. Tourism and hospitality industry growth

FDI in Real Estate on an upward trend

Total FDI in the construction sector, from April 2000-March 2016 stood at US\$ 24.188 billion. During April 2000-March 2016, total cumulative inflows in the construction development sector accounted for 8.4 per cent of total inflows into the country.

Source: Dept of industrial policy and promotion

Growth in both, housing and commercial development will have a positive effect on furniture demand, driven by the need to furnish new constructions.

Tourism and hospitality industry growth

The number of FTAs in April, 2017 were 7.40 lakh as compared to FTAs of 5.99 lakh in April, 2016 and 5.42 lakh in April, 2015. The growth rate in FTAs in April, 2017 over April, 2016 is 23.5% compared to 10.7% in April, 2016 over April, 2015. FTAs during the period January- April 2017 were 35.85 lakh with a growth of 15.4%, as compared to the FTAs of 31.08 lakh with a growth of 10.1% in January- April 2016 over January- April 2015. These trends indicate significant potential for growth in the contract furniture segment. To sum it up, the furniture market in India is growing on strong fundamentals, with demand drivers likely to sustain over the medium term. At the same time, the supply side is also encouraging, as India has sufficient availability of key raw materials that are used as inputs for furniture making.

School Furniture segment

School furniture is a very niche segment out of the total furniture sector. Below is the data pertaining to the number of educational institutions by type for 2014-15.

Number of Schools	Type	Number
	Primary	8,47,118
	Upper primary	4,25,094
	secondary	1,35,335
	senior secondary	1,09,318
	Total	15,16,865

As of 2015, the number of schools in India were around 15lacs and it would certainly increase going forward owing to the rise in the population rate to suffice the number of children from upper middle class families, who can afford to enroll their wards into International schools.

11) Taxation

a) Current Tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961.

b) Deferred Tax

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities related to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

The carrying amounts of deferred tax assets are reviewed at each balance sheet date. The Company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

12) Provisions, Contingent Liabilities and Contingent Assets

- a) Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are not discounted to its present value and are determined based on best estimate required to settle the

obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

- b) Contingent Liabilities are not recognized but are disclosed in the notes to accounts.
- c) Contingent Assets are neither recognized nor disclosed in the financial statements.
